

YOUR MOST POWERFUL WEAPON!

SITUATIONAL AWARENESS SEMINAR

In today's unprecedented times where extreme physical violence is the new normal, how can you keep you and your family safe *without* a firearm or knowing martial arts? What if you already carried an effective weapon with you, every day, and only needed to learn how to use it? Your most powerful weapon – your mind – is at your disposal 24/7. It doesn't need a permit or batteries, and never runs out of bullets. Carried with you everywhere, it can be deployed quick as thought – *if you know how*. ***Your Most Powerful Weapon*** teaches you how to: build mental toughness, control your environment, avoid a threat, defeat an attack, and control fear. It is about building and using your situational awareness as both a deterrent and as a personal skill to avoid and mitigate any pending threat.
