Phone: 480-984-9610 Fax: 480-986-1592

To our valued Members and Staff,

Like you, the Executive Board is closely monitoring the Coronavirus pandemic, and acting as quickly as possible to continue serving you to the best of our ability, both at the Range and through our administrative services.

Your Safety is Front of Mind

- We have continued to take enhanced measures to clean and disinfect equipment, restrooms and other high-touch points of the range at the end of each business day. Hand washing and hand sanitizer stations are available at key locations throughout our facility for your convenience.
- As recommended by state and local health officials, we encourage you to wash, or sanitize, your hands before entering and leaving the Range as a courtesy to the members, the staff, and your neighbors.
- We've created an enhanced "Contact Free" range sign-in procedure for our members and the public utilizing the range. This will reduce any unnecessary cross surface contact.

For Our Team

- The health and well-being of our members, staff, and community remains our top priority. Employees diagnosed with COVID-19 will receive two weeks of replacement pay while they are unable to work. If the employee is unable to return to work after two weeks, they will be able to use any other sick leave pay.
- Any employee who is asked to self-quarantine by their health care provider or by Rio Salado Sportsman's Club, based on current CDC risk assessment guidelines, will have the ability to telecommute and receive replacement pay while they are unable to attend work.

Our staff at the range are truly the people to thank for keeping our range operating. With an additional workload and continually changing work environment, please express your gratitude for their dedication and commitment to keeping our shooting facility operating.

Thank you for the opportunity to serve you and the shooting community. We appreciate your understanding, and we will continue to keep you updated.

Sincerely,

Scott Krushak
President
