# The Ricochet

Winter 2014

Have a Happy, Healthy & Prosperous New Year!

From the Staff & Management of Rio Salado Sportsman's Club

## President's Column

Welcome to 2014 and I hope you had a good year in 2013. We are off to another busy year and are planning for more improvements to the range and looking forward to hosting some great shooting events. In addition to our traditional collection of big matches, RSSC will be hosting the State Smallbore Rifle Silhouette Championship this year. This will be a first for us as Tucson or Ben Avery have traditionally hosted the State Championship. The match will take place in May and preparations to make this a first class event are already under way. You may have noticed the new awning up on the smallbore range. This adds additional shade that will be appreciated by everyone during the warmer months of the year. Our new Airgun division also has some big plans in the works. On the main range, the new check in and RO office has been completed and improves both the look and efficiency of our operations. There is much more to come so keep an eye on upcoming announcements in future copies of the Ricochet.

See you on the range,

Terry Abbott

[President@RioSaladoSportsmans.com](mailto:President@RioSaladoSportsmans.com)

\*\*\*\*\*

## Vice President

As another year comes to a close I look back and take a moment to appreciate the things I find valuable to me. I am first and foremost glad to have been born in the United States. I'm thankful for our military that protects our freedom. I'm thankful for my family, and the friends that surround me and that are frequently closer to me than blood relatives. I'm grateful to live in Arizona. I don't get very far down the list before I get to Rio.

I'm sometimes amazed that Rio is one of the biggest and busiest ranges in the country. The people who volunteer and that are employed here are the reason Rio is so successful. We have over 5000 members. There are elections every year for board positions and frequently no one volunteers for these positions. We have board meetings every month and almost no members attend to engage in the decisions and policies the board is enacting.

I want to thank all the people who make Rio the wonderful establishment and downright wonderful place to shoot and associate with. For all our members who enjoy our facilities, consider taking just a little time this year to get involved with Rio and be an active part in our range to help with our continual success.

Be Safe Have Fun,

Jim Neff

[Vp@RioSaladoSportsMans.com](mailto:Vp@RioSaladoSportsMans.com)

## **From the Main Range**

Here's hoping that each and every one has a great holiday season. If you have not had the opportunity to come to the Main Range and visit the new building, please come and see us!

When you visit the Main Range, check in on the south side of the new building and enter to the left. The entry was moved to accommodate the flow of shooters from the cashier window through the orientation area to the entrance. Your member sign-in is the same, but the path to the entrance will be a little different.

**Thanksgiving was a busy weekend for us as usual.**

**Our volunteer range officers came through for us AGAIN! Thanks to:**

**Jeff Segal; Daniel Bowers; Melissa Bowers; Hans Voigt; Larry Santarosa; Carl Schott; Bob Williams; David Weber; Andrew Picard, and Dennis Savoie.**

**When you see these great folks, give them a sincere THANKS for a job well done.**

Since the day after Thanksgiving, the volunteers put in over 140 hours to help manage the main range during the busiest time of the year on the Friday, Saturday and Sunday following Turkey Day.

If you are a smoker and are trying to get away from tobacco, we applaud your effort. To avoid confusion among smokers who are at the Main Range, we ask that if you are using an electronic cigarette, use the parking lot or the smoking area and not the range (under the roof) to enjoy your cigarette.

If you use chewing tobacco, please don't use while on the range.

As a member, you probably are familiar with the cease-fire announcements on the Main Range. However, not everyone is. For example, we had over 600 first-time visitors to the range in October. So, while you are patiently waiting to work on your targets, remember that the cease-fire instructions might be new to some shooters and they need to hear them. Be courteous and quiet so the Range Officer can get the message across clearly.

Chief Range Safety Officer

## .22 Pistol Division

Most often when we contribute to the Troop Donation Matches, we generally don't know the service

men and women who receive the boxes. However, two of our own—Sara Drake Roddrick who is the daughter of Larry and Gail Drake, and Cody Pultz, son of Bob Pultz, have received boxes while they were stationed in Afghanistan.

More affectionately called “little Sara” began shooting .22 pistol matches at age 10 and through junior high and high school continued to shoot all disciplines within the Practical Division in addition to Sporting Clays. After high school she worked at Dillon Precision before leaving for the Army in El Paso, TX. Her sister Carlie and her Mom continue to work at Dillon.

Sara met Sean Roddick during basic training and got married before being deployed. They shipped out together to Kandahar, Afghanistan. She worked in small arms repair and Sean was a mechanic working on strykers.

Sara said they received several boxes that were filled with everything from beanies and socks to food items. They shared these with others in their motor pool. They are back in the States and she is serving for about 7 more months at which time she will return to school and work on base while Sean, who will make the military his career, awaits his new orders to be either deployed back to Afghanistan or elsewhere.

Cody's experience at Rio Salado started with the Thursday evening .22 Small Bore when he was 12 years old and then moved into IPSC, Practical Pistol Divisions including 3 Gun, and Sporting Clays. After 2009 high school graduation, he also decided to join the military and was sent to Afghanistan where he was with the HH47 flight crew. He has since returned to the States and is presently an Air Assault Instructor at Fort Hood in which he is enjoying the instructor status. Re-enlisting for 3 more years, he is slated to be sent this spring to Fort Campbell, KY with the 101<sup>st</sup> Air Borne Division and will await orders.

Congratulations to Cody and his bride, Bethany—married November 19, 2013. They met while he was stationed at Fort Hood and although she is not in

the military, Bethany was raised in a military family. We wish them well. THANK YOU Sara and Sean, and Cody for serving our country! And many thanks to those who support our Troop Donation Matches!

Sue Little

## Shotgun Notes

Merry Christmas and Happy New Year to each and all!

Let me just take a moment to sum up the 2013 year. It was great! In spite of the economy, the ammo shortage, and the political environment, the Rio Salado shotgun range had another very successful year. The Rio Board allocated funds for more traps, card readers, etc. so we now have mild and spicy options at all 12 of our sporting clays stations. Clearly, this allows for presentations that should appeal to everyone's skill level and sense of adventure, thereby increasing the "fun factor". Look for changes and improvements in 2014 as well!

Our 4 registered sporting clays shoots were well attended and as always, the cream of each class rose to the top. Several of our regular shooters travelled to regional and national shoots and did very well, (partly due to the practice they got on Rio targets) and our congratulations go out to each of them. Check the ASCA web sight and you will see all the scores.

For our trapshooting friends, we offer registered doubles marathon shoots on a monthly basis and 50-50-50 fun shoots usually twice a month. Our regular trap field schedule is Mon., Wed., Thurs., Fri. 7am till 4pm and most Sun. afternoons. **PLEASE CHECK THE RIO CALENDAR FOR ANY AND ALL TIMES, DATES, AND CHANGES TO OUR REGULAR SCHEDULE.**

The Rio Scholastic Clay Target Program is in full swing. Lots of new and returning shooters are here two Friday nights a month and some Saturday afternoons

practicing up for upcoming competitions. Watch out for these young shooters, they are some of the best in the state and are not bashful about beating adults...bless their hearts!

Rio's annual swap meet coincides with the Annual Meeting so come out, cast your vote, and swap some of the possessions that you just had to have but no longer need. Then you will have room for more new stuff! It is part of the cycle of life.

Thanks to all our patrons for helping to make and keep Rio such a great place. Thanks again to the Rio Board for all their cooperation. Thanks to all the supporting cast of characters in the office, in maintenance, and on the shotgun range... Billy, Marge, Cheryl, Kim, Dan, Bob, Barry, Brian, James, Mark, and Lindsay.

Your sweet lovable target setter,  
Jim

[shotgun@RioSaladoSportsmans.com](mailto:shotgun@RioSaladoSportsmans.com)

### **Remember!**

Please wear, or have available, your RSSC Member Badge at all times when on the Range. You will need it for any member services or discounts. It also helps you make New Friends!

## **Welcome to Cowboy Fast Draw with the Rio Salado Vaqueros!**

Howdy, pardners! With this article, we wrap up another safe, fun, and competitive year of Cowboy Fast Draw at Rio Salado Sportsmen's Club.

The Rio Salado Vaqueros shoot the second Saturday of every month at Pistol Bay 1, just east of the Public Range at Rio Salado Sportsman's Club. Things get rolling 'round about 8AM with a safety meeting. Shooting starts shortly after that. Stop on by. We'd love to show you around the sport.

Back in October, the Cowboy Fast Draw Association's Fastest Gun Alive Competition was held in Fallon, Nevada. Eleven Rio Salado Vaqueros and a bunch more from Arizona Territory showed up to lay it all on the line against over 200 shooters from all over this great country. But here's the deal--people are gettin' faster and the competition gettin' tougher, and that's a good thing. The best anyone from Arizona Territory could come up with was 10<sup>th</sup> Place by "The Draw" aka Francis Carlos, but I hear tell that everyone had a rip-roaring good time. And that, pardners, is what it's all about.

On December 7th, the Rio Salado Vaqueros sponsored a cash award shoot at downtown Mesa's Old West Fest. The city ropes off a couple blocks of Main Street for all manner of fun activities, live music, and a little friendly competition, fast-draw style. Our bothers and sisters from the Association of Arizona Gunslingers brought their portable backstop to help make the whole deal possible.

The day started pretty darned early and cold (32 degrees!) while we set up the portable range and all the other equipment. Shooting started around 9:00 AM. Six women and 34 men paid their entry fees and stepped to the line, and when all was said and done, Miss Kitty and Rodeo Romeo walked away in the top spots. Everybody else walked away with a nifty door prize!

During the shoot at the Mesa Old West Fest, we got asked by dozens of inter-

ested passers-by how cowboy fast draw works. One thing leads to another, and before you know it, we're inviting potential new shooters to try cowboy fast draw at Rio Salado Sportsmen's club. That, my good friends, is how we build our membership and we are looking at more opportunities to do this same thing in 2014.

It's been a fun year, and a sad year, with the loss of some of our friends. But that's the way time and nature deals the cards. And I think Lester would agree that life gives you back what you put into it. Our last club shoot of the year happens December 14 followed by our annual club meeting and officer elections. The last Wednesday evening practice is on December 18th. The Rio Salado Vaquero Christmas get-together is scheduled for the 21st which about does it for 2013.

Why not come and join us? To learn more about Cowboy Fast Draw, you can visit the CFDA online at

[www.cowboyfastdraw.com](http://www.cowboyfastdraw.com). You'll find wagon-loads of great information about the sport including the CFDA rule book, events, testimonials, and the ever popular Alias List.

Also, visit the Rio Salado Vaqueros on the web at [www.riosaladovaqueros.com](http://www.riosaladovaqueros.com) for info on upcoming events and event results.

If y'all need even more info, feel free to contact RSV President Muletrain (a.k.a. Bart Carr) by email at [muletrain2010@msn.com](mailto:muletrain2010@msn.com). You can also contact The Draw (Francis Carlos), Cowboy Fast Draw Division Director, by email at [thedraw2011@gmail.com](mailto:thedraw2011@gmail.com).

Be safe and shoot straight,

Longeye  
RSV Club Scribe

Francis Carlos

## Bullseye Pistol Division

### NEW EVENT HAS STARTED

Bullseye Air Pistol 10 Meter started last May. It is now going stronger than ever. The match format is a takeoff of Monday night NRA Bullseye.

Any .177 cal air pistol qualifies. Simply, the match consist of 6 rounds of 10 minute Slow Fire. 10 shots each round using 10 meter NRA / ISSF single bull targets.

The Match is held weekly on Wednesday starting at 6:00 pm. Open practice starts at 5:30 pm. The match is held indoors in the Training Center Building. We have air-conditioning in the summer and heating during winter. See the ' Bullseye ' web site on the Rio Salado web site for details and more information. So come on out and give it a try.

Dave Litt

Bob Logan

## HerHandgun

### Receives Recognition

Kippi Leatham and Debbie Keehart owners/operators/instructors of HerHandgun were awarded with Plaques of Recognition for their work in promoting women into the shooting sports at the Desert Classic Awards in November.

“We are very thankful that we have the opportunity to reach out to women and share our passion for shooting with them. We strive to teach the utmost in safe gun handling while providing a fun and supportive venue for the ladies. We want to thank Rio Salado Sportsman’s Club, Paul Caudill head of Practice Division, and Mick Darren head of Tuesday Night Steel for their support. HerHandgun’s success is due to the team effort from all of you.

To our HerHandgun ladies, thank you too for sharing your HerHandgun experiences with others. It’s because of all of you that we continue to grow and provide instruction for more women to come! After all, women are a big part of our shooting sports future!

Thank you!

Debbie & Kippi

## From the Historian's Pen Pinfire Revolvers

Between the time of cap and ball revolvers and modern self-contained ammo as we know it, some innovations were used and the pinfire bridged the gap between the cap and ball and modern cartridges. Casimir Lefauchaux who was a gun maker at that time invented the pinfire in 1843. It was very popular in Europe and was implemented in rifles and shotguns as well.

The revolvers came in various calibers some as large as the 11 mm. The principal of the pinfire is there is a primer inside of the case that is struck by a pin protruding from the case. When the hammer hits it, the pin is driven against the primer which sets off the round. The system is much faster than the cap and ball revolvers of the period. It loaded and unloaded in the same manner that other cartridge revolvers employ. The system is reliable which made it desirable for self defense at close ranges. Most of the revolvers were underpowered and small. For some years they were popular especially in Europe and were manufactured for years after the modern cartridge revolver rounds were perfected.

One of the smaller ones came in 7 mm caliber shooting a bullet that weighed from 50 to 60 grains. I have a 7 mm model called The Guardian American

Model of 1878. This model was produced from 1878 to 1891 even though pinfires were obsolete by then. The purpose was to have a small repeating handgun for protection. Even though it is anemic no one wants to get shot with anything so it was a deterrent in that regard. It is a small 6 shot model with a barrel length of 3 & 1/2". The trigger guard is missing but it is in fair shape and is shootable. A casual glance of the barrel looks like a 30 caliber; however, both the rear and front have what looks like a chamber. Why, who knows but I slugged the bore and it is a 7 mm.

It is possible to shoot this gun by either buying loaded ammo, which is available, or there is a company in Belgium that makes kits for loading your own ammo. I have tried both and have been able to shoot this gun because of that availability. Accuracy at close range is adequate though the power is extremely low. There is no recoil and the trigger is very light breaking at 12 ounces according to my trigger gauge. Another fascinating historical gun well worth owning and shooting.

Bob Shell
